1988 HAMILTON-WENTWORTH POPULATION STATISTICS

**HAMILTON-WENTWORTH REGION
PLANNING & DEVELOPMENT DEPT.**

APRIL 1989

TABLE OF CONTENTS

INTRODUCTION

Section 1

Map of Hamilton-Wentworth Region

Population by Single Years of Age and Sex; 5 Year Age Groups; and Various Age Groups, for:

Hamilton-Wentworth Region
Township of Flamborough
Town of Dundas
Town of Ancaster
Township of Glanbrook
Town of Stoney Creek
City of Hamilton
City of Hamilton - Lower City
City of Hamilton - Mountain

Section 2

Map of Planning Divisions - Hamilton-Wentworth Region

Population by Single Years of Age and Sex; 5 Year Age Groups; and Various Age Groups, tabulated for each of the 30 Planning Divisions

Section 3

Map of Planning Units (Divisions and Neighbourhoods) in the Town of Dundas

Population by Age Groups by Neighbourhood Planning Unit - Town of Dundas

Population by Single Years of Age and Sex; 5 Year Age Groups; and Various Age Groups, tabulated for each of the 31 planning unit neighbourhoods in the Town of Dundas

★ Map of Planning Units (Divisions and Neighbourhoods) in the City of Hamilton

Population by Age Group by Neighbourhood Planning Unit - City of Hamilton

Population by Single Years of Age and Sex; 5 Year Age Groups; and Various Age Groups, tabulated for each of the 126 planning unit neighbourhoods in the City of Hamilton

INTRODUCTION

This publication is produced by the Information & Research Section, Planning and Development Department. The purpose of the document is to provide more detailed population information than that provided by the Ministry of Revenue, Standard Assessment System. By processing year-end assessment tapes provided to the municipality by the Ministry of Revenue for tax purposes, population data are tabulated into sub-municipal geographic areas that are have meaning in the local community. Furthermore, these tabulations provide more detailed age and sex information than the Provincial system.

The tabulations which follow are organized into three main sections. **Section 1** provides municipal figures including the Region and 6 area municipalities; Hamilton subdivided by the escarpment and the Central Area. **Section 2** summarizes population by Planning Divisions, a coarse subdivision of the municipality. **Section 3** provides neighbourhood level summaries, a subdivision of Planning Divisions. This is the most basic level of geography within this system. Stoney Creek, Hamilton and Dundas are currently the only municipalities in the Region with neighbourhood level tabulations.

Preceding each section are maps to provide geographic reference. In addition a second map set is included to show the location of population.

This document is produced for municipal administrative purposes. The public may have access to it by contacting the Planning and Development Department or the Hamilton Public Library. The Central Library branch maintains a series of these documents in its Government Documents Section.

** IMPORTANT **

The following notes should be read prior to the use of this information.

1. Since 1981, the Province of Ontario has conducted full-scale enumerations only during municipal election years: **1980, 1982, 1985, 1988**. In the years between elections partial enumerations are conducted, and while population tabulations are possible it is not considered wise to attempt to draw conclusions between this information and that produced during full enumeration years. The next full-scale enumeration statistics will not be produced again until **1991**.
2. Municipal population figures in this report may differ from those published by the Province immediately following field enumerations. Provincial figures produced from the June, 1988 enumeration were released with that date as a point in time. The information in this document is based on 1988 year-end data which is a revised data base than the one used to produce Ministry of Revenue figures. Contact the Information & Research Section if more information is required on this subject.
3. A few handwritten adjustments have been made to some of the tables in this publication. The table on the next page summarizes the location of the adjustments. These were necessary to account for an obvious undercount of students living on the McMaster University campus in the "Cootes Paradise" Neighbourhood. Undercounts have been observed every year since 1972, and are due to the timing of the enumeration and the enrollment process at the school. Age and sex breakdowns are not available for the adjusted populations. This year (1988), the undercount was noted as 1,668 persons.

* Adjustments have been made to compensate for the incomplete enumeration at McMaster University. The adjustment is equal to the capacity of the residential quarters (2,334 from 1973 to 1982 and 2,396 thereafter) less the actual count. This tabulation illustrates the ripple effect of the change through the various tabulations. The adjustments have been handwritten in the accompanying tabulations.

** Data are presented only for years in which a full enumeration was conducted by the Province of Ontario.
